HEALTH GUARANTEE

The above described puppy is guaranteed to be healthy and free of any canine diseases and intestinal parasites. The canine diseases are Parvo Virus, Corona Virus, Para Influenza, Distemper, Leptospirosis, Hepatitis, and Kennel Cough. The intestinal parasites are Roundworms, Tapeworms, Hookworms, Whipworms, and Coccidia. The puppy must be seen by a licensed veterinarian within the 7 day period which begins on the date of purchase. If for any reason the puppy has any canine disease(s) and/ or parasites, the buyer has 24 hours to contact Keystone Kennel and make arrangements to return the puppy along with all papers belong with the puppy. At that point Keystone Kennel has the right to a second opinion at no cost to the buyer. If the buyer chooses to keep the puppy then all financial /care responsibilities become that of the buyer and the guarantee is void. If the return is made, the buyer is given a choice of another puppy of equal value when available. At no time does Keystone Kennel assume responsibility for veterinarian bills or secondary expenses incurred by the buyer. The purchase of this puppy acknowledges agreement to all terms and conditions set forth in this guarantee.

REGISTRATION APPLICATION INFORMATION

All of the Adult dogs at Keystone Kennel are registered with AKC (American Kennel Club) and CKC (Continental Kennel Club). You will be given a registration application (s) when you purchase your puppy or it will be mailed to you when it is received by Keystone Kennel (allow up to 6 months). If you request to have the puppy registered with both there will be an additional cost of 30.00. Please fill out your portions of the application (s) and mail to AKC/CKC as soon as possible, there are time limits and additional cost for late applications.

HEALTH AND CARE INFORMATION

All the puppies and dogs at Keystone Kennel have been de-wormed and vaccinated according to the requirements of their age and will continue to be so long as they remain at Keystone Kennel. The information on the health record reads as to when and with what your puppy has been de-wormed and what vaccination (s) it has been given. All puppies are taken to our licensed veterinarian on or about 6 weeks of age for their first vaccination, a fecal check for parasites, and an examination for any abnormalities, genetic faults, etc. All this information is very important to your veterinarian so that he or she can instruct you as to when to bring your puppy back for further vaccinations and other important check-ups. Your puppy's vaccinations for this first year are not complete until he or she has had a series of boosters given at the age required. Until these boosters are complete at 16 weeks of age your puppy should not be socialized with UNKOWN dogs to limit the puppies exposure to any canine diseases. The most common places to be careful of exposure are pet stores, veterinarian hospitals, parks, and obedience classes. When taking your puppy to the veterinarian keep the puppy off the floor, out of the grass/dirt areas outside of the hospital, and avoid people handling your puppy. By following these precautions you will help prevent the exposure of your puppy to any canine diseases, illnesses or parasites.
