

- 15- Enclosures are cleaned / scooped / washed daily. The pens and enclosures are disinfected with a bleach solution at least once a month, and more often if needed.
- 16- Only healthy animals will be offered for sale, unless put in writing, with the problem listed, at time of sale.
- 17- Animals are protected from the elements with the use of dog houses, tarps and natural shade via trees.
- 18- All animals have adequate room to move about freely.
- 19- Food and bedding are stored to prevent contamination and/or spoilage.
- 20- The dog houses and fencing are in a good state of repair. However, some of the outside wood flooring is warped and the nails have pulled away from the joint plates. I instructed the owner to reattach the plates using screws to prevent a health/injury problem for the dogs. Violation issued 40-13-13-04(1)(n) - 7 days
- 21- N/A The dogs are tied out (tethered)
- 22- Waste is disposed via trash removal, burning or composting
- 23- N/A
- 24- It appears the dogs are receiving humane care while at facility.

We completed an application and I received \$50.00 to cover cost of 'pet dealer' license.

Good Luck!

REMARKS:

This facility breeds and sells various types of dogs. The dogs are kept outdoors in (13) various size chain link / wire enclosures w/ wood on dirt bottom. There

is also a whelping building that contains (4) pens that are approx 4'x4'x2', and (12) various size wires and/or plastic enclosures to maintain adults and puppies

9- Structural Strength - most of the outdoor pens need to have the wood flooring completely repaired or replaced. The wood is either separating and buckling, and alot of the wood has holes where the dogs have dug or chewed. A violation was issued under Pa. Rules and Regulations 40-13-13-.04(1)(n).

10- Shelter from elements - there is one pen w/ a doberman that needs its outdoor house replaced due to being completely torn apart. A pen with some dogs only has dog enclosures w/ tops and not bottoms. There must be bottoms placed under the enclosures to keep them dry during inclement weather. Finally there is a pen w/ boxer terriers. These dogs do not have any type of sufficient shade to protect them from direct sunlight. Some type of tarp or roofing must be installed to protect the dogs. A violation was issued under this heading through Pa Rules & Regulations 40-13-13-.04(1)(j)(k).

The pens and indoor enclosures are cleaned daily. Water is available at all times, and food is provided daily according to animal requirements. I will return within (30) days to follow-up and reinspect
